PRODUCT DESCRIPTION

AQURON[®] Chick-Life[™] is a clear yellow aqueous borne life enhancing solution treatment of infant fowl. AQURON[®] Chick-Life[™] also increases and enhances life of mature fowl while increasing egg production and shell strength.

BASIC USE

AQURON[®] Chick-Life[™] solution/treatment reduces perishability in infant fowl. AQURON[®] Chick-Life[™] works to reduce and prevent many diseases that cause infant fowl mortality, especially in high population commercial operations.

AQURON[®] Chick-Life[™] will virtually eliminate lice and parasites in and on chicks. Chicks and mature fowl will be in better general health with the most noticeable difference being in less leg problems.

AQURON[®] Chick-Life[™] will improve growth due to an improvement in utilization of dietary energy and protein. The improvement in utilization of food can be easily verified by analyzing the chick's excrement. Typical results will be that the fowl on AQURON[®] Chick-Life[™] will gain an average of 20% to 40% more weight on the same amount of feed that chicks without AQURON[®] Chick-Life[™], and they will mature 10% to 15% faster.

AQURON[®] Chick-Life[™] will help impart a more restful nature, decreased tendency to be hyperactive, and less apt to fight. This also pertains to more mature birds in transit.

AQURON[®] Chick-Life[™], when administered to laying hens will increase egg yield and the shell will be stronger.

SOME ATTRIBUTES

- Reduces perish-ability in infant fowl
- Reduces infant fowl diseases
- Works to eliminate parasites
- Eliminates lice
- Improves general health
- Less leg problems
- Improves growth

SOME ATTRIBUTES CONT...

- Improves utilization of food
- Matures fowl 10% to 15% faster
- Imparts a more restful nature
- Less tendency to be hyperactive
- Less apt to fight
- Improved shipment of mature birds
- More heat tolerant
- Increased egg yield with laying hens
- Stronger egg shells
- Economical to use
- Increased profitability for commercial operations

PRECAUTIONS

Use prudent laboratory or industrial hygiene procedures. AQURON[®] Chick-Life[™] is non-toxic and completely soluble in water. In concentrate form AQURON[®] Chick-Life[™] can irritate skin and cause reddening.

If eye contact is made, flush with copious amounts of potable water. If burning persists, get medical attention. During dilution of AQURON[®] Chick-Life[™] concentrate wear eye protection and rubber boots, rubber gloves, and rubber apron. Wash hands and face after use.

DIRECTIONS FOR USE

1. Mist spraying of chicks:
 - a. Add AQURON[®] Chick-Life[™] concentrate to water at the rate of 1 (one) U.S. gallon of AQURON[®] Chick-Life[™] concentrate to 1000 (one thousand) U.S. gallons of potable drinking water 3 times per day.

DIRECTIONS FOR USE CONT...

- b. Mist entire population of brood house with light application of diluted, ready-to-use AQURON® Chick-Life™ 3 times a day.
 - c. Mist spray walls and floor of brood house with diluted, ready-to-use AQURON® Chick-Life™ 3 times per day.
 - d. Frequency and rate of consumption should be established by client's in house agriculture department.
2. Adding AQURON® Chick-Life™ to drinking water:
- a. Add AQURON® Chick-Life™ concentrate to drinking water at the rate of one (1) US gallon to 1000 US gallons of potable water (normal drinking water).
 - b. Utilize AQURON® Chick-Life™ fortified drinking water on a continual basis.
3. For commercial laying hens. (Same as number 2 above)
- a. Add AQURON® Chick-Life™ concentrate to drinking water at the rate of 1 (one) U.S. gallon of AQURON® Chick-Life™ concentrate to 1000 (one thousand) U.S. gallons of potable drinking water.
 - b. Utilize AQURON® Chick-Life™ fortified drinking water on a continual basis

ECONOMICS OF USE

The total cost of AQURON® Chick-Life™ concentrate is recovered in added profitability realized by the following:

- Up to 50% savings in food cost.
- Mortality rate reduced by up to 80% or more.
- Shorter growing period for meat producing fowl.
- Egg production increased.
- Egg shell is strengthened
- Less broken eggs.
- More hot weather resistance for fowl.

PACKAGING

AQURON® Chick-Life™ is available in 5 gallon/19.4 liters, 55 gallon/213.4 liters drums.

AQURON® Chick-Life™ is also available in bulk containers.
