### PRODUCT DESCRIPTION

**AQURON® Virucide™** is a clear/blue odorless liquid con **AQURON® Virucide™** is a clear/blue odorless liquid concentrate that when activated and properly utilized destroys viruses without harm to humans, fish or fowl.

### BASIC USE

**AQURON® Virucide™** is a product that when properly activated and utilized destroys viruses on contact. **AQURON® Virucide™** can be used in several different venues. **AQURON® Virucide™** can be activated by mixing one part **AQURON® Virucide™** concentrate to 500 parts potable water. For fowl operations mist entire Brood House including walls, floor and birds with activated product. Once initial misting of Brood House has occurred, automatically mist Brood House 3 times daily by placing activated **AQURON® Virucide™** in misting equipment. The automatic misting of Brood House will destroy the viruses in the air, on the fowl, in the excrement, and on the building itself.

**AQURON® Virucide™** can also be utilized to treat the nesting areas of migratory fowl. Crop dusting planes can be used to manage vast migratory nesting areas by spraying activated **AQURON® Virucide™** over waterways, lakes and streams, which will destroy the virus on fowl without harming the fowl or these valuable wetlands.

### SOME ATTRIBUTES

- Easy to use
- Eliminates viruses
- Economical to use
- Treats total environment
- Spray live fowl
- Greatly reduces or eliminates fowl mortality rate from virus exposure.
- May be applied to laying hens as well as meat producers.
- Contact with drinking water is safe

### COMPOSITION

**AQURON® Virucide™** is a clear /blue odorless virucidal aqueous liquid concentrate. **AQURON® Virucide™** is a proprietary blend of an environmentally neutral ecologically safe formulation comprised of 78 elements and buffered acid compounds. Consult Material Safety Data sheet for further details.

### PRECAUTIONS

Use prudent laboratory or industrial hygiene procedures. **AQURON® Virucide™** is non-toxic and completely soluble in water. In concentrate form **AQURON® Virucide™** can irritate skin and cause reddening. If eye contact is made, flush with copious amounts of potable water or eyewash. If redness persists, get medical attention. During dilution of **AQURON® Virucide™** concentrate wear eye protection and rubber boots, rubber gloves, and rubber apron. Wash hands and face after use.

### DIRECTIONS FOR USE

1. Mist spraying of chicks:
  - Add **AQURON® Virucide™** concentrate to water at the rate of one (1) US gallon of **AQURON® Virucide™** concentrate to 500 (five hundred) US gallons of potable drinking water.

## **DIRECTIONS FOR USE CONT...**

- Mist entire population of Brood House with light application of diluted, ready-to-use AQURON® Virucide™ 3 times a day.
  - Mist spray walls and floor of Brood House with diluted, ready-to-use AQURON® Virucide™ 3 times per day.
2. Misting of wetland nesting areas of migratory fowl:
- Dilute AQURON® Virucide™ 500 parts of potable water to one part AQURON® Virucide™.
  - Spray entire area with AQURON® Virucide™ that has been diluted.
3. Misting of commercial egg production:
- Follow same instructions as detailed in section one.

## **CLEAN-UP AND SAFETY**

All equipment will clean easily with potable water.

## **SHELF LIFE**

Shelf life is indefinite provided product is maintained in original containers with lids tightly sealed.

## **PACKAGING**

AQURON® Virucide™ is available in 5 gallon/19.4 liters, 55 gallon/213.4 liter drums.

AQURON® Virucide™ also available in bulk containers.
